

Leveraging ICTs For Development

PlanetProtectors

Empowering Change for a Sustainable and Green Future!

As we navigate the challenges of climate change, our tool uses technology to empower individuals and communities towards a greener future. Take a step towards tackling climate change and making environmental responsibility accessible to everyone. Through our innovation, we aim to educate, engage, and inspire action.

Key Features

Calculate My Carbon (CMC) Tool

Allows individuals and corporate organizations to calculate their carbon footprint and also gives an insight on how to reduce the same, and adopt a climate-friendly sustainable lifestyle.

E-waste Tool

Helps users to easily locate the nearest certified e-waste recycling centers.

Plantation Tracking Module

Integrated plantation module to track or monitor the growth of the plants planted by you and join in this journey of making a sustainable and better planet.

E-Quiz Module

An interactive quiz module integrated into the mobile application allows participants to learn different facts related to climate change and focuses on three target themes: Low carbon, Renewable energy, and E-waste management.

Unified Registration Portal

Registration Portal for Biogas Plant, Bio CNG & CBG Plants across India. Helps you access comprehensive information on biogas plants, including, location and certification details. Promotes the integration of biogas and renewable energy solutions, driving positive environmental impact and financial aid through the Ministries. Ensuring transparency and credibility in the biogas sector, facilitating informed decision-making for sustainable initiatives.

Quick Facts

25k

More than 25000 saplings planted across India

10k

Students from 80+ schools sensitized on Climate Change

4.7k

4,758 users calculated their carbon footprint

9.9k

9,943 kg of e-waste collected

1.2k

1,223 Biogas & CBG plants registered

Network of 70+ E-Waste Recyclers

25,000+ Saplings Planted

Our Testimonials

Priya

Satisfied PlanetProtectors User

Installing a biogas plant has transformed our approach to sustainability, and PlanetProtectors has helped us every step of the way. Their platform has streamlined our process, from easy registration to getting detailed information. The regular updates keep us informed, and the incentive possibilities encourage our commitment to sustainable energy.

Sankar debnath

Satisfied PlanetProtectors User

Using PlanetProtectors suite of tools has been a game-changer for me. The Calculate My Carbon tool helped me understand my carbon footprint better, and I've been able to make more conscious choices to reduce it. While the E-waste Tool has made disposing of electronics hassle-free, knowing they're being recycled responsibly. Truly innovative solutions for a sustainable future.
